We are here to help you stay well this winter

Things you need to do to stay well

Your health matters

Help us help you

EasyRead version
Stay well this winter

Winter weather can be bad for your health.

You are more likely to get ill if you already have a health condition or are 65 or over.

This leaflet tells you about the things you can do to help you stay well this winter. It is an easy read version of another leaflet.

If you are ill or worried about your health it tells you how you can get the help and care you need, safely.

You may like to have someone to support you when you look at this leaflet.
If you think you have coronavirus

If you think you have one or more of the signs of coronavirus you need to have a test which is sent to a lab. This is called a PCR test.

The main signs of coronavirus are:

- a high temperature

- a new cough that does not stop

- not being able to smell or taste things like food, or they taste different.

You can get a PCR test by phoning 119 or going on the website.

We tell you more about how to do this at the end of this leaflet.
Covid-19 booster vaccine

If you have had 2 coronavirus vaccines you will be offered a coronavirus booster vaccine (jab).

This booster vaccine will help keep you safer from coronavirus for longer.

You will be called by your doctor to have your booster 3 months or more after your second coronavirus vaccine (jab).

You can find out more about the booster and coronavirus vaccine (jab) in the easy reads at bit.ly/C19EasyRead
What to do if you are feeling ill and it is not coronavirus

If you are feeling unwell the sooner you find out what is wrong the better.

Your local pharmacist can help with minor illnesses like colds. If you cannot get to a pharmacy you can phone them or ask someone to go for you.

You can have an appointment with your doctor by phone and online. If they need to see you they will tell you what to do.

If you need help fast you can go to NHS 111 by phone or online.

We tell you more about how to do this at the end of this leaflet.
Get your flu vaccine (jab)

Some people with a learning disability can get very ill if they get flu.

The best way to help protect yourself against flu is to have a flu vaccine.

The vaccine is free if you have a learning disability.

You can have the flu vaccine at your doctors’ surgery or at a pharmacy.

You can also get a free flu jab if you are 50 or over, already have a health problem or are pregnant.
The best way to help protect yourself against flu is to get the flu jab.

If you are 65 or over or already have a health problem, you can get a free flu jab.

If you have young children or grandchildren aged 2, 3 or 4 years old or in years 1 or 2 at school, they may also be able to get the free flu nasal spray.

If you care for an older person or a person with a disability, you may be able to get a free flu jab. Your doctor or pharmacist can tell you more about getting the flu vaccine.

You can also find out more about the flu jab at www.nhs.uk/flu dcccine.
Keep warm

In the winter it is important you keep warm when you are inside or outdoors.

This can help stop you getting colds, flu and more serious health problems.

Make sure you:

1. Heat your home to at least 18°C (65°F) if you can. You might prefer your main living room to be a bit warmer than this.

2. Keep your bedroom window closed on cold nights so you do not breathe cold air.
3. Move around indoors and try not to sit still for more than 1 hour.

4. Wear lots of layers of thin clothes.

5. Find out how you could pay less to heat your home at www.simpleenergyadvice.org.uk

6. Get someone to check your cooker and heaters are safe. Make sure they are registered with Gas Safe.

You can find out more about this at www.gassaferegister.co.uk
Keep active

Keeping active can help you keep well and not get depressed.

It does not matter what you do as long as you are moving.

You could do something you enjoy like dancing, yoga or gardening.

You can find out more about keeping active at www.nhs.uk/keepactive
Help with your mental health

Everyone feels a bit down from time to time.

If you are not feeling as good as normal you can speak to your doctor who can tell you who can help you.

You or a loved one can also get help from a local NHS mental health helpline. You can find their number at nhs.uk/urgentmentalhealth

Make sure you have the right medicines

You can ask your pharmacist what medicines you should have at home in case you get poorly during the winter.

They can tell you about the right medicines to take for illnesses, like colds or earache.
What you can do at home if you are ill

If you are ill the best thing you can do to feel better is:

• rest and keep warm

• drink lots of liquids

• have at least one hot meal each day

• take the tablets you have been recommended.

If you are given any antibiotics or other medicines, remember to take them as your GP or pharmacist tells you. As well as seeing your pharmacist, the best thing you can do to feel better is:

• rest

• drink lots of liquids

• have at least one hot meal each day.

Feeling ill? Get advice from your nearest pharmacist. If you are feeling ill, your pharmacist or chemist can help you. This can be the best and quickest way to help you get better. They can talk to you about:

• the right medicines to take for illnesses, like colds, coughs, sore throats or earache

• the best medicines to take for pain.

Your pharmacist can also tell you about medicines you might need to get through the winter.
Handwashing

Washing your hands with soap and water is one of the easiest ways to not get illnesses like flu and coronavirus.

Wash your hands for 20 seconds more often, especially when you:

- get home or into work
- blow your nose, sneeze or cough
- eat or touch food.

You can find out more about this at www.nhs.uk/handwashing
Feeling ill? Get advice from your nearest pharmacist

If you are feeling ill your pharmacist or chemist can help you. This can be the best and quickest way to help you get better. They can talk to you about:

• the right medicines to take for illnesses, like colds, coughs, sore throats or earache
• the best medicines to take for pain.

Your pharmacist can also tell you about medicines you might need to get through the winter.

Prescriptions

Make sure you have all the medicines you need before your pharmacy or doctors’ surgery closes for Christmas.

If you are given any antibiotics or other medicines, remember to take them as your doctor or pharmacist tells you.

You can also order your repeat prescriptions and make appointments with your doctor online using the NHS App.

You can get the NHS App from the App Store or Google Play.

You can find out more at www.nhs.uk/nhsapp
Look out for other people

Remember to keep in touch with your older friends, family and neighbours over the winter.

Ask if they are feeling OK and if they need any help.

Make sure they have enough food for a few days.

Make sure they have all the medicines they need before the Christmas holidays start.

If the roads and pavements are icy, some people might not be able to get out.
If you have to go out in the cold wear:

- shoes with a good grip
- a scarf around your mouth to stop the cold air getting in.

If they need help over the holidays when their doctors’ surgery or pharmacy is closed they can contact **NHS 111** by phone or online.

*We tell you more about how to do this at the end of this leaflet.*

**Get help from NHS Volunteer Responders**

If you need help, NHS Volunteer Responders can help with things like shopping or even a friendly chat.

You can contact them between 8am and 8pm on **0808 196 3646**.
6 things to remember

1. Get a flu jab.

2. Get your coronavirus booster jab when it is offered.

3. Heat your home to at least 18°C (65°F) if you can.

4. Find out about help to pay for your heating at www.simpleenergyadvice.org.uk

5. If you start to feel ill contact NHS 111 by phone or online.

6. Check on other people who might need extra help in the winter.
Where to go for the right medical help

If it is a real emergency and life threatening then you can call **999**.

Phone or go online to **NHS 111**

If you need help and advice but it is not an emergency you can go to **NHS 111**.

To contact **NHS 111** you can:

- go online to **111.nhs.uk**

or

- phone **111**.

By answering a few questions about what is wrong you will be told what to do and where to go.
Contact your doctor or pharmacy

If it is less urgent you can contact:

• your local pharmacist

• your doctor.

You can also get advice at www.nhs.uk

Write down your local pharmacy and doctors’ surgery phone numbers here:
How to get a coronavirus test

You need to have a PCR test as soon as possible if you think you have one or more of the signs of coronavirus.

- go online to www.nhs.uk/coronavirus
  or
- phone 119.

If you are worried about your symptoms phone 111 or go to 111.nhs.uk/covid-19
